

CAMPMAJÓ COLOURS GUIDE

At Campmajó, we want your bicycle to be exactly what you have always dreamed of. That is why we aim to offer a big range of possibilities so you can customize your bike without limitations.

First we have the RAL colour catalogue, a super wide range of opaque colors. You can check the whole range in the following link: <https://www.ralcolor.com/>

A part from that we also offer a wide range of special paints featuring unique effects.

These finishes not only provide a distinctive and striking touch but also add depth and character to your bicycle, making it a unique piece that reflects your personal style. In this document, we list the different types of finishes we offer, their unique characteristics, and how they can upgrade the appearance of your bicycle to a new level.

Metalized paint:

This type of finish highly prioritizes shine. Its composition has aluminum scales that help reflect light in a constant and overwhelming way; it doesn't matter where you look from, because at any angle its shine will stand out

BM01 Pitch Black

BM02 Vivid Gold

BM03 Carmine Red

BM04 Leaf Green

BM05 Crazy Orange

BM06 Topaz Blue

BM07 Fuchsia Queen

BM08 Pale Gold

BM09 Spartan Red

BM10 Storm Blue

BM11 Cyber Silver*

BM12 Night Violet

BM13 Metallic Dark Green

BM15 Anthracite Grey

*Cover picture colour

Pearl paint:

Pearl paints are designed with aluminum pearl particles that reflect light, giving a shiny effect to the surface. The reflection of light in the pearls occurs when it is pointed (under some degree of angulation) at the crystals and that makes the paint shine.

The last layer is transparent and provides shine, making its colors extremely vivid and pure, and protection at the surface

PB01 Valencia Orange

PB02 Space Gold

PB03 Deep Gold

PB04 Celestian Blue

PB05 Phoenix Red

PB06 Autumnm Violet

PB07 Marshmallow

PB08 Emerald Green

PB09 Bordeaux Red

PB10 Mantis Green

PB11 Touareg Blue

PB12 Thai Teal

PB13 Tundra Green

PB14 Mineral Silver

PB15 Polar White

PB16 Anthracite

PB17 Quantum Black

PB18 Design Purple

PB19 Copper Pearl

Chameleon paint:

Chameleon or colorshift paint is a metallic acrylic paint that changes color depending on the angle at which light hits it, two-tone tones with intermediate color gradations. These are also known as iridescent or iridescent paint

RED to ORANGE

GREEN to PURPLE

GREEN to COPPER

PURPLE to ANTHRACITE

GREEN to VIOLET

VIOLET to GOLD

BLUE to VIOLET

CYAN to PURPLE

BLUE to RED

Holographic Paint:

Holographic, prism or rainbow effect paint, composed of micro-particles that break down light into various wavelengths resulting in the appearance of an impressive multicolored rainbow in a metallic finish

Black background rainbow

Candy paint:

As its name indicates, the "Candy" effect provides a finish similar to candy, although it offers a superior shine when reflected by sunlight.

KB01 Red Wine

KB02 Lime

KB03 Caribbean Blue

KB04 Horizon Blue

KB05 Colorado Brown

KB06 Pure Orange

KB07 Palm Green

KB08 Extreme

KB09 Vivid Red

KB10 Olympic Gold

KB11 Coral Turquoise

KB12 Scary Fuchsia

KB13 Blueberry

Fluorescent paint:

Paints with very striking colors with another type of luminescence. The pigments in fluorescent paints are enhanced by ultraviolet light, shining more intensely, which is why they are also called neon colors

FB01 Pink

FB02 Yellow

FB03 Soft Orange

FB04 Orange

FB05 Red

FB06 Magenta

FB07 Violet

FB08 Green

FB09 Blue

Due to the greater complexity of the application process of all these special paints, each type of paint has a specific extra cost that is added to the price of the frame. For each design the extra cost will be different so we will make a specific budget to know the price of your unique design.

If you already have a clear idea of how you want to paint your bicycle, you can already specify it in the customization form in our website. Next, we will send you the preliminary design and budget of your bike.
